PROFESSIONAL SUMMARY

SAP Certified ABAP Cloud Developer with hands-on experience in RAP (RESTful Application Programming Model), CDS Views, and OData services on SAP S/4HANA. Skilled in designing and delivering scalable SAP enterprise applications and optimizing ABAP program performance. Proficient in SAP Fiori development and RESTful API integration. Additionally experienced in full-stack web development using the MERN stack (MongoDB, Express.js, React.js, Node.js).

TECHNICAL SKILLS

SAP S/4HANA	Data Dictionary	Core ABAP	SAP RAP
CDS Views	OO ABAP	Modularization Techniques	ABAP Reports
ABAP Debugging	VS Code	SAP GUI / Eclipse ADT	Postman

PROFESSIONAL EXPERIENCE

Associate SAP ABAP Consultant

Jan 2026 – May 2026

Slite Consulting LLP

- Design and deliver SAP ABAP solutions in S/4HANA environments, contributing to client-facing business application development.
- Develop RESTful OData services using SAP RAP (RESTful Application Programming Model) to enable seamless enterprise API integrations.
- Build and optimize CDS (Core Data Services) Views for analytical and transactional data models, improving data retrieval performance.
- Collaborate cross-functionally to gather requirements and translate complex business logic into scalable, maintainable ABAP code

SAP ABAP Intern

Aug 2025 – Jan 2026

- Developed classical and interactive ABAP reports, Smart Forms, and Data Dictionary objects within SAP S/4HANA systems.
- Applied modularization techniques including function modules, classes, and methods to improve code reusability and maintainability.
- Performed debugging and performance tuning of ABAP programs, reducing runtime inefficiencies in custom report execution.

PROJECTS

SAP RAP- Based Activity Tracker Business Application | RAP, CDS Views, SAP Fiori Launchpad, BAS

- Developed a full-stack SAP Fiori application using the RAP framework, exposing CDS-based OData services consumed by a Fiori Elements UI.
- Implemented business logic through behavior definitions and behavior implementations, following clean ABAP cloud development principles.

CERTIFICATIONS

- SAP Certified Associate - Back-End Developer - ABAP Cloud (January 2026)
- National Council for Technology and Training - ME(A)RN Full stack Development (May 2024)

EDUCATION

Diploma in Computer Engineering 2023
State Board of Technical University, Kerala

AWARDS

- Best National Service Scheme Volunteer (2022)
- Rajyapurasakar Award Winner for Bharat Scout and Guides (2018)
